VOTES FOR WOMEN

**Calling All Women!!!**

VOTES FOR WOMEN

## Celebrating the 96th National Women's Equality Day!

The observance of Women's Equality Day not only commemorates the passage of the 19th Amendment, but also calls attention to women's continuing efforts toward full equality.

As a tribute to the women who fought and those still fighting for equality, we are looking for enthusiastic women to help us make this Aug 26th informative and memorable.

If you're interested please contact

Misawa AB Tropical Cyclone Conditions of Readiness (TCCOR)		
CONDITION	TIME/POTENTIAL	EMERGENCY MANAGEMENT RECOMMENDATIONS
TCCOR Storm Watch	There is still a possibility of danger to personnel due to storm unpredictability or hazards created by high winds.	Monitor the Commander's Access Channel, internet, email & AFN radio broadcasts.
TCCOR 5	96 hours prior to possible arrival of sustained 50 knot (58MPH) winds.	Check and update disaster kits and monitor emergency broadcasting stations.
TCCOR 4	72 hours prior to possible arrival of sustained 50 knot (58MPH) winds.	Units take actions for warning notifications & prepare for UCC activation.
TCCOR 3	48 hours prior to possible arrival of sustained 50 knot (58MPH) winds.	Schools, AAFES facilities, Post office & nonessential work centers may be closed.
TCCOR 2	24 hours prior to anticipated arrival of sustained 50 knot (58MPH) winds.	All facilities may be closed and all personnel except mission essential personnel will be sent home.
TCCOR 1	12 hours prior occurring or anticipated arrival of sustained 50 knot (58MPH) winds.	All nonessential activities may be closed.
TCCOR 1C (Caution)	Winds of sustained 50 knots or greater to occur within the next 3 hours.	Monitor the Commander's Access channel, internet, email & AFN radio broadcasts for weather updates.
TCCOR 1E (Emergency)	Winds of sustained 50 knots or greater are occurring.	All nonessential personnel may be sent home and all DODD & AAFES facilities and nonessential work centers may be closed.
TCCOR 1R (Recovery)	Destructive winds of sustained 50 knots are no longer occurring. All personnel, except pre-identified emergency essential recovery personnel, remain in quarters.	Major clean up efforts by military personnel may be delayed until the winds have subsided to less than 20 knots sustained.
All Clear	Hazardous conditions and winds are no longer present. Return to normal duties.	The wind speeds shown above for each TCCOR serve as a guide. Decisions on the TCCOR declaration rests with the 35 FW/CC based on wind speeds, weather forecast, operational/ mission concerns and the safety of all involved.

Typhoon Categories (Disaster Potential Scale)					
	Storm Category	Wind Speed		Storm Surge (feet)	Damage/ Effects
		Knots	MPH		
	Tropical Depression	34 or less	39 or less	N/A	None/Minimal - Heavy rain and thunderstorms.
	Tropical Storm	35-63	40-73	N/A	None/Minimal - Heavy rain and thunderstorms. Several feet of rain within several days. Minor coastal flooding and erosion.
Tropical Cyclone (Typhoon)	Category I	64-82	74-95	4-5	Weak/Minimal - no real damage to building structures. Damage primarily to unanchored mobile homes, shrubbery, and trees. Also, some coastal road flooding and minor pier damage
	Category II	83-95	96-110	6-8	Moderate- Some roofing material, door, and window damage to buildings. Considerable damage to vegetation, mobile homes, and piers. Coastal and low lying escape routes flood 2-4 hours before arrival of center. Small craft in unprotected anchorage break moorings.
	Category III	96-113	111-130	9-12	Strong/Extensive - Some structural damage to small to small residences and utility buildings with a minor amount of curtain wall failures. Mobile homes are destroyed. Flooding near the coast destroys smaller structures with larger structures damaged by floating debris. Terrain continuously lower than 5 feet above sea level (ASL) may be flooded inland 8 miles or more.
Super Typhoon	Category IV	114-134	131-155	13-18	Very strong/Extensive - More extensive curtain wall failures with some complete roof structure failure on small residences. Major erosion of beach. Major damage to lower floors of structures near the shore. Terrains continuously lower then 10 feet ASL may be flooded requiring massive evacuation of residential areas inland as far as 6 miles.
	Category V	above 134	above 155	above 18	Devastating/Catastrophic - Complete roof failure on many residences and industrial buildings. Some complete building failures with small utility buildings blown over or away. Major damage to lower floors of all structures located less than 15 feet ASL and within 500 yards of the shoreline. Massive evacuation of residential areas on low ground within 5-10 miles of the shoreline may be required.
